and General Intelligence
for Eagle Readers.

Threat for Child Labor.
The Chicago Times-Herald says: "With a modest-looking contract form, confined in the limits of 300 words, the Illinois Steel Company is seeking to cast its hundreds of minor employees into industrial slavery, and parents are shrinking, some of them rebelling and others surrendering to unwilling obedience. By the terms of the contract, the father or mother of any minor working in the mills and foundries of the steel company binds himself or herself to relinquish all rights over the services of the child and surrender all rights before the law to sue for and recover damages for the injury or death of such child's services through injury or death in the mills. And such is the ironclad provision of this document that this exemption from damage is made binding, even though the maiming or death is directly traceable to the criminal negligence of the company or its employees. The language of the blank contract is plain. Moreover there is a force placed back of it that is driving many parents to acceptance of its provisions. That force is the company's direct threat to discharge all minors whose fathers and mothers refuse to put their names to the paper. Poverty and hunger at times are the compelling power that traces signatures upon such documents."

A MILLIONAIRE'S SON.

Dead Burglar at St. Joseph, Mo., Is So Identified.
The burglar killed at St. Joseph, Mo., by Dr. Hale was identified by a detective as Harry Huguley, the wayward son of H. W. Huguley, a millionaire brewer of Boston. All efforts of his father to reform him were in vain. He was sent to the Texas penitentiary from Dallas for forging the name of Sheriff W. H. Lewis to an order for \$15. He entered a plea of guilty and a few minutes later a telegram came from his father employing lawyers to defend him. Since then his father has allowed him a dollar a day as living expenses, paid through a friend in St. Louis, the payment to be made each day.

FELL THREE THORIES.

H. A. McCausland, of Saginaw, Mich., Killed at Auburn, N. Y.
At Auburn, N. Y., H. A. McCausland, a traveling salesman for the Michigan and Ohio Plaster Company, either threw himself or fell from a third story window of the Osborne House Wednesday. Although conscious when found, he died four hours afterward. It was impossible to secure from him a connected statement. Twice he said that there had been persons in the hotel room with him, but as the door was found to be locked, with the key inside, all thoughts of foul play were abandoned. McCausland was about 30 years old and his home was in Saginaw, Mich.

Non-union Miners Join the Militia.
The mining troubles at Wallace, Idaho, are ended for the present. Ninety-five of the non-union men who were threatened at Muller have enlisted in the State militia, and others are being enrolled. They have rifles and ammunition sufficient for present needs. John Eklund, who was beaten into insensibility at Gem, left Wallace, Idaho, last week, and was needed by a dozen persons, none could be found who dared to testify.

Revolt in Armenia.
The most alarming news yet received at Constantinople from Armenia was made public Wednesday. It is stated that the situation is so grave that the Zettout Mountains there are 20,000 Armenians in open revolt against the rule of the Sultan. The Turkish Government, in view of this outbreak, has decided to call out the army reserves.

Destruction of Cedar Forest.
Ernest Faber, the well-known penicill-maker, complains that the barbarous destruction of valuable cedar forests in America without replanting has greatly increased the price of wood suitable for penicill-making, while the Americans have literally swamped the British, Mexican and Indian markets with cheap pencils.

Chicago Contractors Win.
The contract for the construction of the new tobacco and cigarette factory of Liggett & Myers, in St. Louis, has been let to Clark & Sons, of Chicago. The price will exceed \$1,250,000. The factory will be composed of sixteen buildings ranging from two to six stories high and all connected.

Buy the "Bay Window House."
Rev. Dr. Talnage has bought from Mrs. Katherine Cole the celebrated "bay window house" on Massachusetts avenue, the most fashionable street in Washington. In the transaction Dr. Talnage deals with Mrs. Cole's house in Brooklyn.

Cabinet Crisis in Chili.
Valparaiso, Chili, dispatch: Official business is completely paralyzed because of the Cabinet crisis. In spite of all hopes expressed in Government circles, Senator Benjifio has been unable to complete his list for a new ministry.

Monument to a Ruin.
The Lincoln monument at Springfield, Ill., is fast crumbling to ruin. It is found to be a pile of rotten brick, with a veneer of stone. It will be razed, and a suitable shaft erected in its place.

Defied the Officers.
Mrs. Wheeler has been arrested at Santa Barbara, Cal., on a charge of insanity. When the officers went to arrest her she stood at her door with a revolver and told them to stand back if they valued their lives. For eighteen hours she kept them back.

To Join the Insurgents.
Jesse Coxey, son of the Massillon, Ohio, community, wired his mother that he sailed for Cuba Tuesday on the Adrian. It is believed he will join the Cuban insurgents.

Vast Stockyards in Mexico.
President Jones, of the Union Stock yards, Pueblo, Colo., will purchase lands required for the projected union stock yards at the City of Mexico, which is a scheme favored by the government and railway companies. The price of the land is said to be \$2,000,000 gold.

Foreign Product Shut Out.
As the result of an agreement entered into between American manufacturers of window-glass and importers of the same product, there will be an advance of 24 per cent. in prices. The importers have agreed to no longer handle the foreign product.

RUSSIA INVITES WAR.

Intense excitement in England over the movement in the Orient. The Grim-visaged war is again wrinkling his savage front. The latest news from the Orient reveals a situation so grave that several nations are almost certain to be embroiled in the near future unless something is done at once to relieve the strain. The Shanghai dispatch announcing the departure of a fleet of fifteen Russian warships from Vladivostok for Chemulpo and Fusan, Korea, and the London Times dispatch from Hong-Kong announcing that Russia has obtained the right to anchor her fleet at Port Arthur and construct railroads on the Liao-Tung Peninsula, have caused intense excitement in official circles in London, as well as in those having commercial relations with the East. The most important statements are looked upon generally as being a sudden reopening in an unexpected quarter of the far Eastern question in its widest sense. The Shanghai dispatch added that the Japanese fleet, Fort-mosan waters had been recalled, that several British warships had been ordered to Korea, and that preparations for a struggle are visible on all sides. The Hong-Kong cable message to the London Times dispatch that the Japanese fleet, Fort-mosan waters had been recalled, that several British warships had been ordered to Korea, and that preparations for a struggle are visible on all sides. The Hong-Kong cable message to the London Times dispatch that the Japanese fleet, Fort-mosan waters had been recalled, that several British warships had been ordered to Korea, and that preparations for a struggle are visible on all sides.

ST. PAUL CARS TIED UP.

Boy Thieves Disable Seventy-Five Passenger Coaches.
There are three boys in Chicago who can give lessons in the art of tying up a railroad system. The eldest of the three is but 14 years old. They claim no excessive allowance of gray matter, yet they managed Friday seriously to inconvenience the local service of the Chicago, Milwaukee and St. Paul Road. Then they managed to get into jail, and this without the tugging features of injunctions, Federal courts or habeas corpus actions. Seventy-five passenger coaches, lying in the St. Paul yards, were disabled by these three youngsters, who went out on a raid for brass and other metals which they hoped would bring them monetary reward in neighboring junk shops. The three precious conspirators proceeded along Kinzie street shortly before daylight and tore from each coach that was side-tracked the brass clenchings that are a part of the steam-heating and air-brake connections. A few hours afterward, when the employees of the road appeared to make up the trains for the day, they found the coaches dismantled and practically put out of service.

ADVERTISE ON COINS.

Michigan Merchant Evolves a Brilliant Scheme.
A merchant in the interior of Michigan has evolved a novel advertising scheme, but is in some doubt as to his right to use it. The plan is to stick a round poster on the back of a silver dollar, setting forth catchy language something to this effect:
"Send or bring me back to the store * * * where I'm worth \$1.00."
Assistant District Attorney Wilkins of Detroit received a letter from the originator of the novel plan in which he set forth his system in detail, and asked if there is any provision of the Treasury Department against it. Mr. Wilkins looked up the question and answered that there is no statute to prevent it. He has written to the Secretary of the Treasury to ascertain if the department has any ruling which prevents the use of United States coins for advertising purposes.

CARTRIDGES IN DOLLS.

New Scheme of Insurgents' Friends to Aid Cuba.
The representatives of the Spanish Government in this country have discovered what is said to be a new plan on the part of the sympathizers with Cuban insurgents to ship ammunition from the United States to their compatriots in Cuba. Detectives have been watching the insurgents' friends for three weeks, and report that they have obtained sufficient facts to substantiate the original story. The friends of the insurgents, according to the story, have sent large consignments of toys to Havana. Those toys consist mostly of large and unusually heavy dolls. Their weight is accounted for by the detectives by the assertion that each doll contains a dozen rifle cartridges. The last consignment of dolls sent from New York to Cuba is reported to have contained 400 cartridges.

WILL INVEST IN HAWAII.

Cleveland Company, with \$3,000,000 Capital, to Buy Sugar-Cane Lands.
William Blaisdell, a capitalist and promoter of Honolulu, has been in Cleveland, Ohio, during the last week, engaged in interesting capitalists in a vast scheme to obtain control of the best sugar-cane producing land in the Sandwich Islands. A number of wealthy gentlemen have taken hold of the project and a company will be formed at once and capitalized at \$3,000,000. The land in question consists of 15,000 acres located fifteen miles from Honolulu.

Alaskans Worked Up.

The agitation of the Alaska boundary question has been taken up bodily by the American residents of Juneau and a move is now being made to form a boundary club at that place to keep the people and the government fully alive to the danger of losing the valuable Yukon mines. The war cry "Ten Marine Leagues or Fight" is being sounded. A Washington dispatch says: "The people of Juneau may possess their souls in peace," said Gen. Duffield, of the Coast and Geodetic Survey, "as to the possibilities of that city being included in English territory, if the results of our survey of the boundary between Alaska and the British possessions as far as made, may be accepted as assurance. They seem to be unnecessarily worked up over the situation. They should know that the commissioners acting in behalf of this country and Great Britain will have no voice in the final determination of the dispute, as it will be settled by the high officials of the foreign affairs offices of the two countries. The union of the commissioners is to furnish data in behalf of their respective countries, reach a conclusion, and it is with this end in view that our engineers have been in the field this summer and last."

Hoar Re-Elected.

The closing day's proceedings of the national conference of Unitarian and other Christian churches in Washington were the most important and interesting of the convention. The annual election of officers resulted in the re-election of United States Senator Hoar, of Massachusetts, as president; Rev. W. D. Moorehouse, of New York, general secretary; and William Howell Reed, of Boston, treasurer.

In Tennyson's Shoes.
Great Britain heard with surprise Monday the report that Alfred Austin had been chosen poet laureate. The Bookman, a recognized literary authority of the kingdom, makes the positive announcement of the appointment in its November number. Austin's name has scarcely been mentioned in the discussion of the probable successor of Lord Tennyson, hence the sensation attendant upon his reported appointment. If it be true that the influence that swept aside Swinburne and Dobson in favor of William Ernest Henley has been overthrown in favor of the poet, critic and journalist, there will be few to mourn. The appointment will be popular. Never a great man in the literary field, Austin has still endeared himself to the English people by his nearness to them.

NEW REVOLUTION IN HAITI.

Hippolyte Proclaims a Siege and Orders Political Prisoners Shot.
News has been received at New York of a revolution in Haiti. President Hippolyte, it is said, has retired to his palace in Port Au Prince, where he is guarded by the army which he brought down from the north with him when he overthrew Legitime. Commercial houses in New York which do business in Haiti have been expecting this outbreak for several weeks. When dispatches came saying that Hippolyte had proclaimed a state of siege in Port Au Prince they were not unprepared. Their private dispatches were to the effect that several of the leading men of Port Au Prince had been arrested, as well as many who had come in from the country to help swell the army of the revolution. Hippolyte proclaimed the state of siege and ordered out a certain number of his prisoners to be shot. So far ten men have been shot and about twenty are in the military prison. Though the old friends of Legitime are concerned in the present movement it is said that Gen. Maignat is not at the head of it. The army of Hippolyte has been concentrated about his palace and he intends to make his final fight.

BURNED AT THE STAKE.

Awful Treatment of Prisoners by a Mussulman Mob.
Constantinople dispatch: Another terrible massacre of Armenians is reported to have occurred in the Halibut district, between Erzeroum and Trebizond. A mob of about 500 Mussulmans and Laras, the great majority of whom were armed with Martin-Henry rifles, made an attack upon the Armenians inhabiting several villages of that vicinity, and set fire to their houses and schools. As the Armenians fled in terror from their dwellings they were shot down as they ran, and a number of men and women who were captured by the rioters, it is added, were fastened to a stake and burned alive. The Armenian women who fell into the hands of the mob, it is also asserted, were brutally treated and mutilated. The Turkish officials, it is claimed, know the ring-leaders of the outbreak, but apparently no steps have been taken to arrest them. The number of Armenians massacred at Erzingjan is now said to be several hundred. The Turks, it is stated, have also attacked the Armenians in the district of Vanushah, near Trebizond, and have slaughtered many of them.

MAIL TRAIN WRECKED.

Engineer and Fireman Killed and Ten Postal Clerks Injured.
A disastrous wreck occurred on the Pennsylvania Railroad at Newport, Pa. A derailed car on the east-bound freight track jumped the track just as mail train No. 7 was at that point. The locomotive and tender of the mail train were hurled into the canal, and the postal and freight cars were piled up over the tracks. Engineer Wilkili and Fireman Haines, of Harrisburg, were instantly killed, and eight or ten postal clerks were injured. Four mailcars took fire and together with a large amount of mail matter were burned up. Passenger trains are running by way of the Northern, Central and Sunbury and Lewistown divisions.

Jumped to Certain Death.
Just as the department store of Siegel, Cooper & Co. at Chicago was being closed Monday night Mrs. Mary Walsh, of 5415 Princeton avenue, leaped from the third floor of the rotunda in the center of the building and was hurled headlong to the tiling below, a distance of thirty feet. Death ensued in a few minutes. The skull was terribly crushed and the jaw bones fractured. She had been suffering from dementia, and her act was one of premeditation.

Peril of the Sultan.
A dispatch received from Constantinople says that a plot has been discovered among the officials of the Sultan's palace. In consequence, it is added, numerous arrests have been made, and the residences of the ministers are now guarded by troops.

Found Her Hair on the Floor.
Miss Ella Miller, of Elkhart, Ind., awoke the other morning to find her hair lying on the floor at the bedside. Her grown brother, who is a sleep-walker, is supposed to have cut off the hair during one of his somnambulistic spells.

Bank Forced to Close.

Slowness of collections forced the State Bank at Gothenburg, Neb., to close its doors. The deposits amount to about \$8,000, while the assets are about \$25,000, part of which is uncollectible.

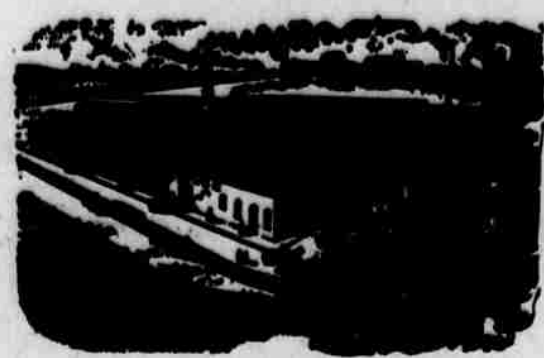

Fast Express Ditched.
Spreading galls checked the Burlington's Denver-St. Louis fast express at Waldron, Mo. Nine persons were injured, three of them seriously.

MARKET QUOTATIONS.

Chicago—Cattle, common to prime, \$1.75 to \$3.50; hogs, shipping grades, \$1.00 to \$1.40; sheep, fair to choice, \$2.50 to \$3.75; wheat, No. 2 red, 50c to 60c; corn, No. 2, 30c to 31c; oats, No. 2, 18c to 19c; rye, No. 2, 38c to 39c; butter, choice creamery, 10c to 21c; eggs, fresh, 17c to 18c; potatoes, per bushel, 17c to 25c; broom corn, common growth to choice green hurl, 2 1/2c to 4c per pound.
